

Brilliantissima Red Chokeberry

Aronia arbutifolia 'Brilliantissima'

Multi-stemmed shrub

Height – 6' to 8', Spread - 3' to 4'

Full sun to partial shade

Rich, consistently moist soil

Pinkish-white flowers in spring

Glossy red berries in summer persisting through winter

Brilliant red foliage in fall

Attracts songbirds, supports bees

Low Scape® Mound Black Chokeberry

Aronia melanocarpa Lo Scape® Mound

Deciduous Shrub

Full Sun, Part Sun, Part Shade

Soil: Wet to dry, wetlands

Prefers average water, moist, well-drained,
but is heat, drought and salt tolerant

12-24" tall, low-growing, compact, mound-shaped habit

Glossy green foliage turns brilliant red in fall with dark
purple-black fruit; hundreds of dainty white,
fragrant, flowers bloom in mid-spring

Attractive to bees, butterflies, birds

May be deer resistant

Beautyberry

Callicarpa americana

Deciduous shrub

Height – 3' to 6', Spread - 3' to 6'

Full sun to partial shade

Moist, rich soils/Medium loamy soils

Lavender flowers bloom in late spring

Spectacular bright violet to magenta berry-like drupes

**Seeds and berries are an
important food source for birds**

Button Bush

Cephalanthus occidentalis

Shrub

3-8 feet tall, 3-6 feet wide

Full sun to part shade

Wet, moist soil

White flowers (1-inch balls) in summer

Attracts butterflies and other pollinators

May be deer resistant

White Summersweet

Clethra alnifolia

Part sun to part shade
Prefers moist to wet soil

Grows 3-8 feet tall
Low maintenance and will naturalize
Fragrant, white flowers in summer

Attracts butterflies and other pollinators
May be deer resistant

Summersweet/Sweet Pepperbush

Clethra alnifolia 'Ruby Spice'

Rounded, densely-branched shrub

Height – 4' to 6', Spread - 3' to 5'

Prefers part-shade but tolerates shade

Moist, acidic sandy soils

Fragrant rose-pink flowers in late summer

Yellow to golden-brown foliage in fall

Flowers attract bees and butterflies

Common Witch-hazel

Hamamelis virginiana

Deciduous shrub

Height - 8' to 12', Spread - 6' to 10'

Full sun to partial sun

Moist, well-drained soil

Green-blue foliage, turning bright yellow in fall
After leaves drop, spidery-petaled yellow flowers
appear, borne directly on stems

Attracts songbirds, source of late fall nectar

May be deer resistant

Jim Dandy & Winter Red Winterberry

Ilex verticillata 'Jim Dandy' & 'Winter Red'

Deciduous shrubs, dense, multi-stemmed

Full Sun

Moist, well-drained acidic soil

'Jim Dandy' 5 - 7', 'Winter Red' 6 - 10' tall

Showy bright red berries on the female 'Winter Red'
in fall to winter; must have male to pollinate,
one male to six or more females

'Jim Dandy' (male) has abundant small white early-spring
flowers, which bloom for a long period

Attracts birds

Virginia Sweetspire 'LittleHenry'[®]

Itea virginica 'Little Henry'[®]

Deciduous native shrub, low & mound forming

Height-3', Spread 3'- 4'

Full sun to full shade

Thrives in moist to wet, slightly acidic soil

Will tolerate drier soil once established

White flower spires, blooms in late June

Beautiful red fall foliage

Attracts butterflies

May be deer resistant

Coppertina Ninebark

Physocarpus opulifolius 'Coppertina'

Shrub

Full sun to partial shade

Adaptable to difficult situations

Drought and cold tolerant

6-8 feet tall

White flowers in early June

Attracts butterflies

Independence Rosebay Rhododendron

Rhododendron maximum 'Independence'

Native evergreen with large, upright, rounded form

Height: 8' - 12', Spread 8' - 12'

Thrives in shady areas, partial sun

Cool, moist, well-drained organic soil

Large dome-like buds open into massive globes of clear pink flowers in late June, lasting to July

Nesting spot for songbirds, wildlife cover
Attracts butterflies

Swamp Azalea

Rhododendron viscosum

Multi-stemmed Deciduous Shrub

Full Sun to Part Shade

Acid soil, consistently moist

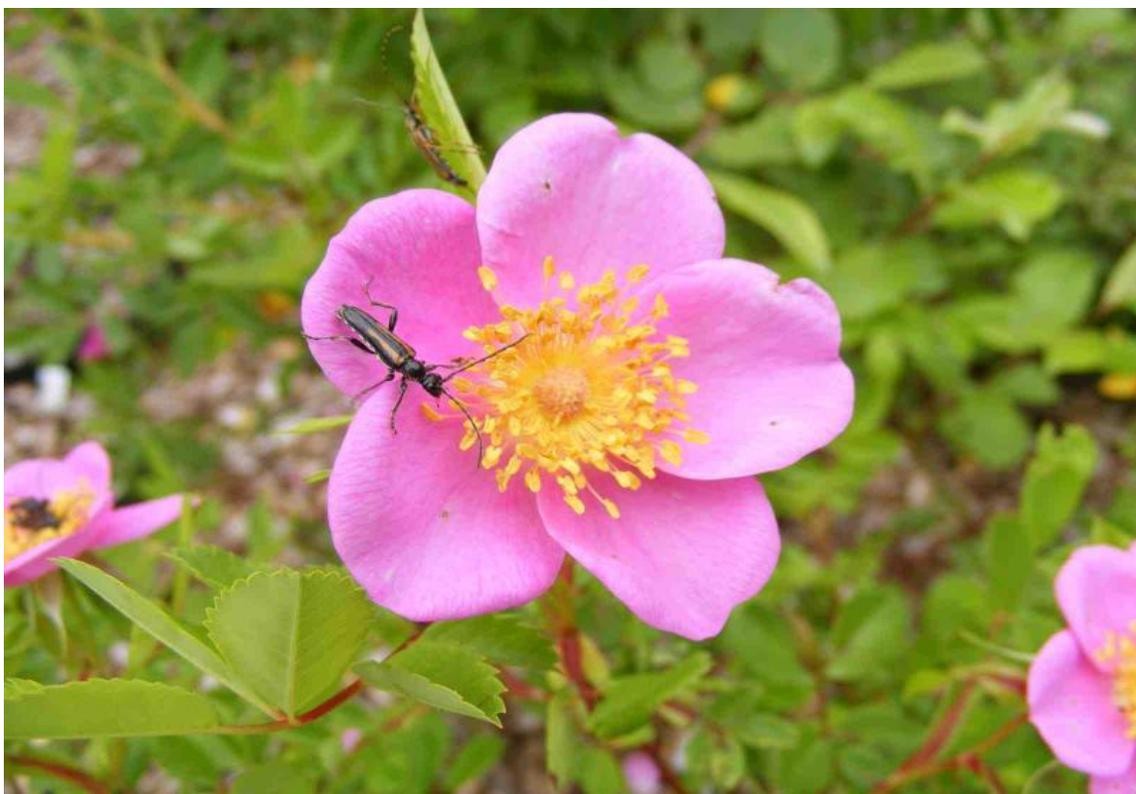

8-10' tall, loose upright habit

Lustrous green foliage clustered at branch ends,
turning reddish-orange in fall

White to pink flowers with a spicy, clove-like fragrance
"space-filling scent"

Blooms mid-June into July

Attracts butterflies, hummingbirds, songbirds, bees

Swamp Rose

Rosa palustris

Multi-branched sub-shrub

Full sun to part sun or part shade

Wet, peaty, moist

4-6 feet tall

Pink flowers, summer through fall

Attracts butterflies, birds, and pollinators

May be deer resistant

Pussy Willow

Salix discolor

Deciduous shrub

Sun

Tolerates moist soils

6 - 18 feet tall

Flower catkins in spring

**Attracts bees, birds, and butterflies
(Red-spotted Purple and Viceroy)**

Blue Blaze Viburnum

Viburnum dentatum 'Blue Blaze'

Native shrub with dense, low-mounding habit

Height: 5' - 6', Spread 5' - 7'

Full sun to part shade

Moist well-drained acidic soil

Somewhat drought tolerant

Dark green lustrous foliage

Creamy white flowers in May to early June

Flowers give way to dark blue berries

Beautiful purplish-red fall color

Attracts bees, butterflies and songbirds

Wentworth Viburnum

Viburnum trilobum 'Wentworth'

Deciduous shrub, dense, rounded form

Partial Sun

Enriched, well drained soil

8-10 feet tall

Creamy white flowers late May,
bunches of red fruit late summer, great red fall color

Attracts birds
